

Daily Guided Walks

Archangelos to Seven Springs €35pp

Duration:

3 - 4hrs

Trickling streams, rustic bridges and the scent of pine and a lake feeding the spring that's named Efta Piges, our walk starts from the village of Archangelos. The tarmac road soon gives way to a dirt track that winds its way through land which bears fruit trees in fenced areas and then opens up to pine trees and olive groves.

As we approach Seven Springs the pine trees become more dense and the evidence of water is apparent.

Cool your feet, take off your walking boots and walk through an underground tunnel that runs

under a wooded hill to feed the lake.

The return to Archangelos take us on an alternative route with a contrasting landscape.

Equipment:

You will require walking boots and walking socks for support and comfort while walking. It is advisable to wear light long sleeve shirts and light trousers in addition to a sun hat, sun cream sunglasses. You should bring a rucksack, as it will be necessary to carry your lunch, personal items and at least one litre of water.

Food:

Daily Guided Walks

You will not need to bring a large amount of food, however, certainly bring some. This is the sort of walk where you might bring some snacks and fruit. There is a taverna on route where you can get food and drink. The best rule of thumb is always to come away from a walk with some food spare.

Walking conditions:

This route mostly follows good tracks though these can be quite rough underfoot at times. There are some shaded sections but it is best to be prepared against the sun. This area of Rhodes is not especially hilly and the walk consists mostly of easy gradients.

Stops & Breaks:

As this is a shorter walk, we will generally stop for several shorter breaks over the course of the walk rather than a long lunch stop. Our walk leaders know the best places to stop for example where there is shade or a good view. Throughout the day, there is plenty of opportunity to stop for a rest, to admire the view or to take photos.
